Brookville truck assembly as installed on a new streetcar built by the New Orleans Regional Transit Authority Car Shop

Brookville Equipment Corporation control cabinet and operator station used in new Canal Street trolleys

Completed Canal Street car which incorporates Brookville Equipment Corporation trucks and power systems

Brookville Equipment Corporation has been manufacturing rail-mounted equipment since the company's founding in 1918. Brookville is pleased to offer New Orleans RTA a domestically manufactured truck assembly and drive system, which truly modernizes the PCC car without affecting the historical appearance.
